SUMMER ENTERTAINMENT IN BEDFORDSHIRE EDITION

Is your Identity safe?

RFID Protect, protecting your identity

R RFID Protect supply a range of sleeves, wallets, and ID card shields that are designed specifically to offer protection against unauthorised access to 'contactless technology'.

RFID Protect enabled devices that you may already possess include, but not exclusively, credit cards, passports, identity cards, Oyster cards, ski-passes and many passes for electronic 'swipe card' door entry systems.

Components can be extremely small, and you may not even be aware that an item you carry about every day is already RFID enabled! By 2012 it is estimated that over 29 million British citizens will carry some form of RFID enabled device. To protect yourself against unauthorised scanning of this information RFID Protect have the solution. With a range of shields/blocks and wallets and card holders RFID Protect will have the solution for you.

RFID Protect care about crime reduction. With over fourteen years experience in law enforcement and security, they've seen some pretty ingenious crimes in our time. They've also witnessed at first hand the

distress caused to victims and remain committed to helping improve things. As the only dedicated supplier in the United Kingdom for 'anti-skimming' RFID shielding products, you can be sure of a first rate service – because they don't do anything else. Working in conjunction with Bedfordshire Police Partnerships Trust, see what RFID Protect can do to help you, visit their website or call them. ☎

Make yourself invisible.

What they can't see,
they can't steal.

RFIDprotect

Working in partnership with Bedfordshire Police Partnership Trust.

Your identity and personal information are priceless to criminals.

Contactless technology (RFID) is being introduced by banks, businesses and the government at a rapid pace. But do you know exactly which items you carry about every day that are already RFID enabled?

At any time, you could be at risk of identity theft, without even realising it!

Why take the chance?

Simply carry and conceal all your cards, especially contactless RFID cards and biometric passports in one of our inexpensive securely shielded wallets, or individually designed holders. In effect, you'll be hiding them behind your very own portable firewall.

And what thieves can't see, they can't steal.
